

Wassenburg DRY320

Drying & Storage Cabinet

A revolution in ergonomics

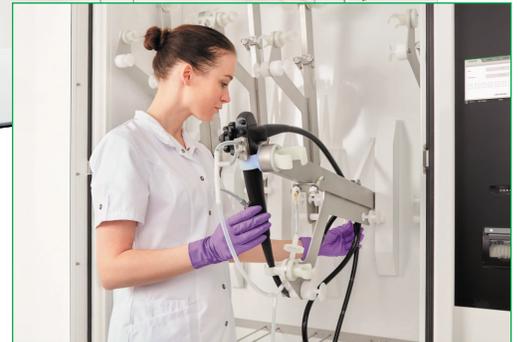

- ▶ **Excellent Ergonomics:** Features a unique pull-down positioning system.
- ▶ **Optimum Drying Process:** Endoscopes are stored in a vertical hanging position, allowing gravity to facilitate the drying process.
- ▶ **High Loading Capacity:** Stores up to 10 endoscopes. Each endoscope has an individual connection to ensure optimum airflow.
- ▶ **Extended Storage Time:** Preserves the washed and disinfected state of the endoscope for up to 30 days.*
- ▶ **Comprehensive Process Monitoring:** Drying status can be easily monitored via LED status indicators and a user-friendly dashboard.

Class 2 Laser Product

**The DRY320 comes configured with a pre-set factory storage time of 7 days. Facility requirements and local medical guidelines may limit the storage time.*

Wassenburg Medical, Inc • 144 Railroad Drive, Ivyland, PA 18974
